Budget

* indicates a required field

The budget is divided into three sections which SmartyGrants will use to automatically calculate your budget totals.

- **Cash Budget Template** is where you can include any items for which you will need to pay for with money from the project budget. Examples might include catering or art supplies.
- **In-Kind Contributions** is where you can include any resources that will be made available to the project without cash payment. Examples include free use of a venue or food donations. To calculate an estimated value for these items, ask what you would have to pay if the service/goods were not being made available free of charge.
- **Volunteer Cost Calculator** is used to assign a value to the time donated by your volunteers.

Please note: funding is limited to \$1,000 for Sustainability Arts Grants.

Please ensure the budget is as realistic and detailed as possible. The Small Project Grant amount being requested should be included in the budget as cash income.

This budget should cover the costs of the project as a whole and not just the expenses funded by the Yarra Grant.

The budget should balance, to demonstrate that the project is viable and not being run at a profit.
