Outcomes

To support alignment with [Yarra's Community Vision](#) and the Community Grants Program Aims, Council has developed an Outcomes Framework.

Please tell us about the outcomes you expect to result from your project. Outcomes are the changes you expect to occur for the beneficiaries (direct, indirect and/or intermediaries) of your project.

Generally, outcomes can be framed as an increase or decrease in one or more of the following:

- Skills, knowledge, confidence, aspiration, motivation (these are generally immediate or short-term outcomes)
- Actions, behaviour, change in policy (these are generally intermediate or medium-term outcomes)
- Social, financial, environmental, physical conditions (these are generally long-term outcomes)

As part of the application process, grant applicants must select outcomes and indicators from the Council-developed framework that best match their project goals. These will be used to measure success and must be reported on at the acquittal stage.

The number of outcomes and indicators to select depends on the grant size:

- **Medium grants:** Select **at least 2 indicators** from **2 outcomes (\$4,001-\$20,000)**
- **Large grants:** Select **at least 3 indicators** from **2 outcomes (\$20,001-\$40,000)**
-

Important: Choosing too many outcomes or indicators may make reporting more difficult. Focus on selecting those most relevant to your project.

The Outcomes you will need to choose from are [listed on our website](#).

Objective/Goal	Action/Activities	Timeline	Measure of Success
Example: To improve the health of teenagers living in the Sunnydale Estate (particularly to lower the rate of smoking from 70% to 30% of young people)	Example: Our Youth Worker will survey the local teenagers to better understand what programs they would like to participate in (This includes designing and printing the surveys, handing them out and creating a survey return box).	Example: March Years 1, 2 and 3 (School holidays). Surveys will be handed out from 1 March until 31 March and collected each week.	Example: Over 80% return rate on surveys. Six good suggestions of programs from the teenagers. Enthusiasm amongst participants. Lower rate of smoking among survey participants evident by Year 3.

Budget Template

*** indicates a required field**

Budget Instructions

The budget is divided into two sections which SmartyGrants will use to automatically calculate your budget totals.

- **The budget form** includes three columns for your income on the left, and two columns for your expenses (expenditure) on the right.
- **In-Kind Contributions** is the section for you to include any resources that will be used in your project that don't require payment (e.g. people volunteering time or free venue use). To calculate an estimated value for these things, ask what you would have to pay for the service/goods if they weren't free.

2027 Yarra Grants Application Form

Form Preview

Due to the competitive nature of Yarra Grants, successful applicants may not receive the full amount they request. A smaller amount may be recommended if the project will still be viable. Therefore, it is important that your budget is as *realistic* and *detailed* as possible.

Suggestions of items to include in the budget and in-kind contributions have been provided. Additional rows can be added to both if needed.

Please ensure that your budget covers the costs of the project as a whole and not just the expenses funded by the Yarra Grant.

Total Income should match Total Expenditure in the submitted budget.

[See Budget Example.](#)

Tips:

- It is important that all costs are realistic and explained within your application.
- Ensuring that your budget is as detailed as possible helps the assessors understand the amount requested and demonstrates what the impact of reduced funding might be.
- If you have applied for other funding for your project, please note this in your budget and ensure it is clear if the funding is confirmed or unconfirmed.
- Including quotes in your support material, especially for significant items, may help assessors understand your costs.

Please add as much detail as possible
